

**Remarks**

Acceptance/formal entry therefor of this amendment as a supplement to the recently filed fully responsive amendment, dated June 9, 2004, is respectfully requested.

The purpose of this Amendment is to effect minor editorially clarifying/corrective changes throughout the Specification. Due to the extensiveness of the revisions implemented, applicants are submitting herewith a Substitute Specification as **Attachment A** along with a marked-up version of the original Specification, enclosed herewith as **Attachment B**. Incidentally, the headings of the various portions of the Specification were re-named so as to more closely conform with that pertaining to USPTO practice. With regard to the revisions implemented in the Specification, also, many of the very lengthy paragraphs are being re-presented in a multi-paragraph format for purposes of readability thereof. It is submitted, new matter is not being added with regard to the Substitute Specification, either by addition and/or deletion.

Reconsideration as well as favorable action on the above-identified application in view of the earlier filed fully responsive Amendment of June 9, 2004 as supplemented with this present filing is respectfully requested.

To the extent necessary, applicants petition for an extension of time under 37 CFR §1.136. Please charge any shortage in the fees due in connection with the

S.N. 10/611,862

filing of this paper, to the Deposit Account of Antonelli, Terry, Stout & Kraus, LLP,  
Dep. Acct. No. 01-2135 (500.39912CX1), and please credit any excess fees to such  
deposit account.

Respectfully submitted,  
**ANTONELLI, TERRY, STOUT & KRAUS, LLP**
